

# Take Action!

## Let your voice be heard!

Your voice counts as we invest in building a newer and cleaner power system that creates jobs, delivers significant economic benefits to local communities, and is also safe and affordable.

### **Write to your local representatives**

You can take action right now and show your support for wind energy by sending a letter to your provincial representative and asking them to support wind energy and the policies that will help it continue to grow.

Follow three easy steps on the Friends of Wind homepage to let your provincial representative know that clean and renewable energy is important to you!

### **Submit a letter to your local newspaper**

You can also write a letter to the editor in your local community newspaper to help raise awareness, correct misinformation and voice your opinions.

Together we can ensure that Canada is a world leader in the development of clean, affordable wind energy.

Check out example letters to the editor on our Friends of Wind website, under the *Spread the Word* section.

## Do you need help finding your local community newspaper?

Consult the Newspapers Canada website at [www.newspaperscanada.ca/database](http://www.newspaperscanada.ca/database) to find community newspapers in your area.

## Check out WindFacts!

The *WindFacts* website contains facts and resources that address a number of areas of key interest to Canadians: how wind works, health, community, affordability and environment & wildlife.

By logging in through top social media programs such as Facebook, Twitter and LinkedIn, visitors can also submit questions about wind energy through the *Ask Us!* section.

Visit [www.windfacts.ca](http://www.windfacts.ca) today to get the facts on wind energy and join the conversation.

## Wind for my community!

To see and hear real stories from individuals living near wind farms, visit the [www.windformycommunity.ca](http://www.windformycommunity.ca) website.

## Show your support!

### Friends of Wind Calendars

Calendars can be purchased in bulk for your land-owners and supporters in English or French at [www.windcalendar.ca](http://www.windcalendar.ca). The national calendar fundraiser supports Friends of Wind activities. This year's calendar features Faces of Wind – those individuals leading the way in the renewable energy industry.

## Become a Friend of Wind

Stay Connected! The monthly Friends of Wind eLetter is distributed to members of the Friends of Wind network. Sign up today at [www.friendsofwind.ca](http://www.friendsofwind.ca)

### Lawn Signs & Promo banners

Help support wind energy with pro-wind lawn signs. Through our Friends of Wind website, click under *Media & Resources* to find more information on purchasing lawn signs, as well as promotional banners.

Use the promotional banners on your website, blog, twitter and facebook pages to help spread the word about [WindFacts.ca](http://WindFacts.ca) and [friendsofwind.ca](http://friendsofwind.ca)!

## Join the Social Media Circle

CanWEA continues to regularly update our social media networks with industry news and is seeing a steady growth in interactions and conversations on both our Twitter and Facebook pages.

- Follow CanWEA on [Twitter](#) for up to date interesting facts and information on wind energy around the world
- Like CanWEA on [Facebook](#) and join the conversation about our energy future
- Like [Friends of Wind](#) on Facebook and keep up to date with most recent news and activities
